AuraGen[®] Mobile Power System Showcased in GM Trucks and Vans at SEMA Show

EL SEGUNDO, Calif., November 5, 2002 – Aura Systems, Inc. (OTCBB: AURA) today announced that its AuraGen[®] Mobile Power System would be showcased in three General Motors vehicles at this year's 2002 Specialty Equipment Market Association (SEMA) show, November 5-8 at the Las Vegas Convention Center. GM's exhibit will feature the AuraGen in the GMC Savana Installer Pro van, the GMC Yukon XL Outdoor Living Pro, and the Chevrolet Express Ultimate Ski van. The on-board AuraGen Power System provides plenty of remote power wherever these vehicles go.

For years, the GMC Savana full-size van has proven itself a highly versatile vehicle for either personal or commercial use. Now, the GMC Savana Installer Pro show truck elevates this concept of versatility with new features and devices designed specifically for the commercial electrician. Innovative solutions, such as the AuraGen, have been included that make an electrician more efficient both on the road and at the job site.

The GMC Yukon XL made its reputation as a Professional Grade refined people and cargo carrier. Yet its size and power also give it the capability to serve as a weekend home improvement tool. The Yukon XL Outdoor Living Pro, with an on-board AuraGen Power System, provides plenty of remote power for home improvement projects wherever the vehicle goes.

The Chevrolet Express Ultimate Ski Van makes traveling a pleasure for any active family on a killer sporting adventure. The new segment-busting Express Ultimate Ski van made its debut at the 2002 SEMA show in Las Vegas. It offers an all-new look, plus industry exclusives and innovative solutions such as the AuraGen, making it the ultimate all-terrain full-size van. The AuraGen provides 110-volt power to the vehicle wherever the vehicle goes.

ABOUT AURA SYSTEMS

Aura Systems Inc., a technology leader in mobile power, develops and sells AuraGen[®] mobile induction power systems to the industrial, commercial and defense mobile power generation markets. The Company's unique and patented energy solution is the only proven, commercially available pure sine wave power system that can continuously provide thousands of watts of power at low engine speed, and is fully integrated under the vehicle hood. The AuraGen[®] is capable of generating full power up to 8500 watts at all engine speeds including enhanced engine idle speed for gasoline engines and at idle speed for bigger diesel engines. The AuraGen[®] combines sophisticated mechanical and electronics design, advanced engineering and break-through electromagnetic technology to produce a highly reliable and flexible mobile power generating system that creates alternating current (AC) and direct current (DC) electricity, both with and without the
